HKUST Ranked World's No.17 in Technology

The Hong Kong University of Science and Technology (HKUST) has been ranked No. 17 globally in the newly released *Times Higher Education Supplement (THES)* league table of the world's top 100 universities in technology, reinforcing the University's high standing internationally and reflecting the esteem of its academic peers.

The 2006 rankings, released in October, see HKUST rise to its highest position in the *THES* surveys so far. Last year HKUST was ranked No. 23 in the world in technology. Peer review plays an important role in the *THES* rankings criteria, with data gathered from over 3,700 academics around the world.

In this year's *THES* technology league table, HKUST was the only university in Hong Kong listed in the top 60.

World's Top 100 Universities in Technology

Rank	Institution	Country
1	Massachusetts Institute of Technology	US
2	University of California, Berkeley	US
3	Indian Institutes of Technology	India
4	Imperial College London	UK
5	Stanford University	US
