HKUST IN THE GLOBAL CONTEXT

A focused elite research university with a global reputation for excelling in science, technology and business, complemented by humanities and social science.

An international university with strong ties to global thought leaders, whilst having wide-ranging connections with Mainland China.

A university that promotes interdisciplinary thinking, dedicated to educating well-rounded students with a strong entrepreneurial spirit and innovative thinking.

A university with an Institute for Advanced Study which seeks to become a global premier knowledge hub and incubator of top scientific leaders.

A university with a spectacular physical setting, conducive to the pursuit of intellectual and academic excellence.

HKUST was founded in 1991. The Hong Kong University of Science and Technology (HKUST) is dedicated to fostering global leaders, critical thinkers, and innovators. Just two decades after establishment, we were repeatedly ranked the No.1 university in Asia.* Our pursuit of excellence centers on our uncompromising effort to hire the best educators and researchers from around the world, and to serve as a holistic learning arena through a wide range of academic and personal development opportunities to equip the students and institutional future, and闪光的. In 2010, HKUST was ranked the No.1 university in Asia.*

Hong Kong is one of the world’s most cosmopolitan cities, holding a distinctive status within China under the unique “one country, two systems” concept. The city is a global hub for financial services and business, and a top tourist destination. Hong Kong enjoys free flow of information and academic freedom. It also serves as a gateway to and from Mainland China as well as the international community.

THE HONG KONG ADVANTAGE

High-flying undergraduate programs in areas such as technology and management, risk management and business intelligence, and environmental management and technology. The Division of Environment and Division of Biomedical Engineering leverage HKUST’s cross-disciplinary research strengths.

HKUST FOK YING TUNG GRADUATE SCHOOL

Situated in Nansha, Guangzhou, the School provides HKUST with a strong base in Mainland China for research, postgraduate education, and knowledge transfer.

A platform for HKUST faculty and students to participate in major Mainland research schemes.

HKUST Jockey Club Institute for Advanced Study

More than 50 visiting professorships and international Advisory Board members, including Nobel Laureates.

Close to 500 distinguished lectures, along with seminars, conferences, workshops and visitor lectures have been held at the Institute since its inaugural lecture in 2006 by renowned theoretical physicist Stephen Hawking.

SCHOOL OF SCIENCE

Programs in the biological sciences, physics, chemistry and mathematics, with special emphasis on developing innovative curricula in areas of technological importance.

The prestigious State Key Laboratory of Molecular Neuroscience was established at HKUST in 2010.

SCHOOL OF BUSINESS AND MANAGEMENT

The School’s programs are consistently ranked among the top in the world. The School maintains a network of over 270 undergraduate exchange partners and around 650 exchange partners with leading business schools.

SCHOOL OF HUMANITIES AND SOCIAL SCIENCE

Largest interdisciplinary program in humanities and social science in Greater China. A multi-perspective training and research in fields encompassing anthropology, economics, innovation studies, linguistics, musicology, political science, sociology and visual art.

INTERNATIONAL PROGRAMS OFFICE

A high-flying undergraduate program in areas such as technology and management, risk management and business intelligence, and environmental management and technology.

The Division of Environment and Division of Biomedical Engineering leverage HKUST’s cross-disciplinary research strengths.
